"I have evidence that a student cheated on the exam. The answer sheet was stolen from my office. Hopefully, there was only one student involved. We will know more pending an investigation." According to Ludlow and Neale, it is implausible to think that all of these uses can be chalked up to semantic facts. In each case, the proposition ...

Plato's "Allegory of the Cave" is a concept devised by the philosopher to ruminate on the nature of belief versus knowledge. The allegory states that there exists prisoners chained together in a cave. Behind the prisoners is a fire, and between the fire and the prisoners are people carrying puppets or other objects. This casts a shadow on the other side of the wall. The prisoners watch these ...

The first time critical thinking was documented is believed to be in the teachings of Socrates, recorded by Plato. But throughout history, the definition has changed. Today it is best understood by philosophers and psychologists and it's believed to be a highly complex concept. Some insightful modern-day critical thinking definitions include:
