The notion that families play a critical role in promoting children's literacy development is undisputed. Literacy, or the ability to read and write, is composed of a variety of skills that range from letter recognition and phonemic awareness, to oral language, vocabulary, story comprehension, and motivation. These skills begin developing at birth, and a substantial and solid research base

25 Ways Schools Can Promote Literacy Independent Reading contributed by Kimberly Tyson, Ph.D.. In the age of modern literacy and its emphasis upon having students take on more challenging text, independent reading and student choice can easily take a back seat to the demands of increased rigor. However, in a balanced literacy program, they remain important.
