Chapter 10: Jython and Java Integration¶. Java integration is the heart of Jython application development. Most Jython developers are either Python developers that are looking to make use of the vast library that the JVM has to offer, or Java developers that would like to utilize the Python language semantics without migrating to a completely different platform.

JavaFX is a software platform for creating and delivering desktop applications, as well as rich Internet applications (RIAs) that can run across a wide variety of devices. JavaFX is intended to replace Swing as the standard GUI library for Java SE, but both will be included for the foreseeable future. JavaFX has support for desktop computers and web browsers on Microsoft Windows, Linux, and macOS.
